

## CUTTING MACHINE

IMT-HT-SM800

### Features

This equipment is used for cutting and 90-degree cutting, the machine uses pneumatic cutting, which is stable and smooth. The front and rear guide rails use precision square SUP as guide rails, which have higher cutting precision. Most of the market uses plated round rails, which are prone to deviation in precision during long-term cutting cycles. The service life and precision of precision guide rails are relatively longer and more durable. This product is a 700 large plate professional cutting machine model, providing better processing equipment for all-aluminum home furnishings.

Motor Power	1.5W
Working voltage	400V
Working pressure	0.6 – 0.8 Mpa
Saw Blade Spec	Φ 255 x 25.4
Saw Shaft speed	5000 r/min
Machine Dimension	1260mm (L) x 600mm (W) x 1270mm (H)
Machine Weight	220Kg
90° Cutting	20mm (H) x 800mm (W)
Conveyor Spec	3000mm (L) x 745mm (W)
