

## PNEUMATIC ALUMINIUM CUTTING MACHINE IMT-YT-455Q

### FEATURES :

- Hidden saw blade allows safe cutting up and down work
- The cut surface has no burrs and the saw blade is more durable
- Can saw single or multiple pieces at a time, suitable for small or large-scale production
- The clamping and cutting procedures are all controlled by electrical appliances. The working time and clamping pressure are adjustable. It can cut thin-walled materials without deformation and at a fast speed, greatly improving work efficiency.

### CUTTING CAPACITY

Cutting Angle	90°
Max Cutting Width	⌀300mm
Max Cutting Height	125mm

### TECHNICAL PARAMETERS

Motor Power	4kW
Spindle RPM	2850 rpm
Voltage	400V
Saw Blade size	⌀455mm
Pressure	5~6 kg/cm <sup>2</sup>
Table Height	850mm
Machine Dimension	750 x 850 x 1000mm
Weight	350kg
